

CAP STRATEGIC PLANS

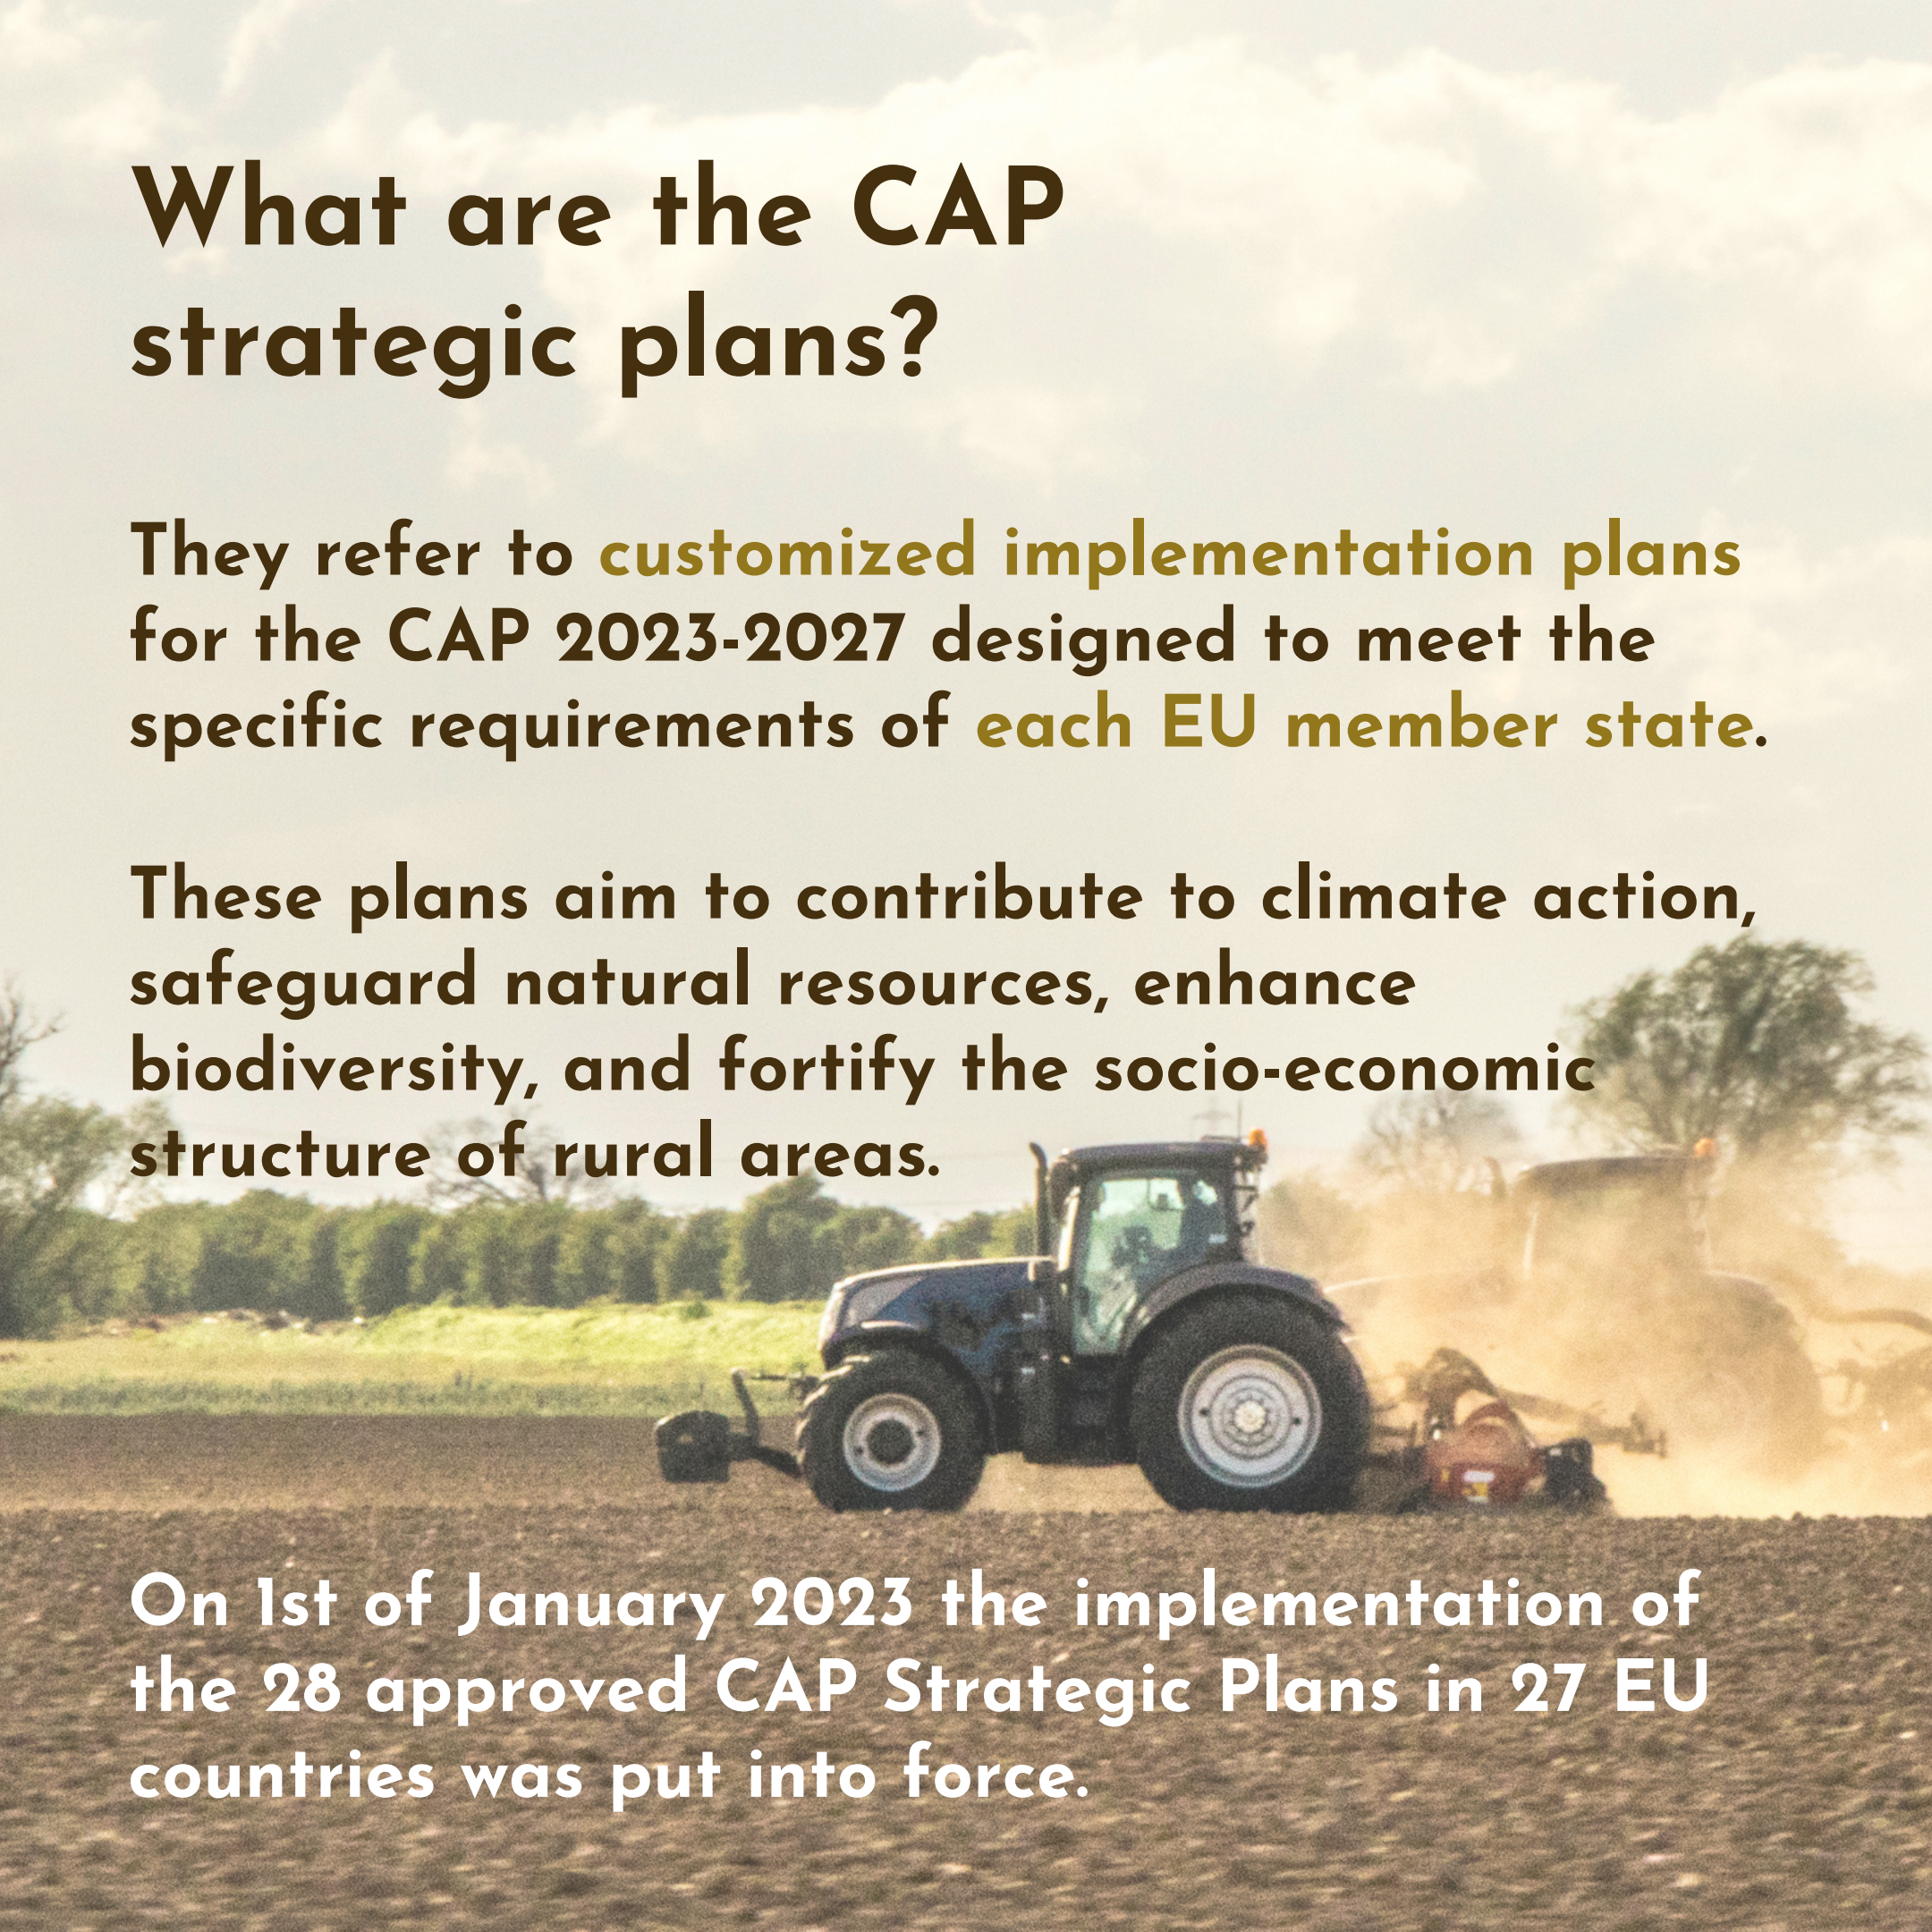

The CAP for 2023-2027

What are the CAP strategic plans?

They refer to **customized implementation plans** for the CAP 2023-2027 designed to meet the specific requirements of **each EU member state**.

These plans aim to contribute to climate action, safeguard natural resources, enhance biodiversity, and fortify the socio-economic structure of rural areas.

On 1st of January 2023 the implementation of the 28 approved CAP Strategic Plans in 27 EU countries was put into force.

The CAP strategic plans for 2023-2027

The CAP 2023-27 follows a **performance and results-based approach** built around ten objectives, which frame the EU countries' CAP Strategic Plans.

These combine targeted interventions addressing specific needs and delivering on EU-level objectives.

The 10 CAP 2023-2027 objectives

These objectives are the basis upon which EU countries designed their CAP Strategic Plans.

CAP Strategic Plans by country

Find out about each country's strategic plan at the **official site** of the European Commission.
